

Make your Own Litter Box Sally J Foote, DVM

Purchase a large tote (at least 20 Gallons) with a lid.

Clear walls are best for cats to see other cats that may want to ambush the user.

Cut a hole in one end. Make sure you don't leave any sharp edges.
The bottom of the hole should be not higher than 4 inches.

The opening should be at least 10 inches high.

Fill with no more than 2 inches of litter and put lid on container.

Most cats like carbon activated litter by Fresh step

Be sure to scoop daily!
