Help your pet have the most calm care possible

If your pet could talk, this is what they would ask for when ever they received veterinary care. Be sure to follow this plan for every veterinary visit, especially emergency and referral care.

Veterinary Care plan for _____

Pre-exam medications stress:

Medication _____ dose _____ hours/days ____ hours ____ minutes before exam

Pheromones _____ Apply 30 minutes before travel

Pain relief/Antihistamine medication _____ dose _____ minutes before exam

Skip meal before exam yes _____no _____

My favorite yummy food for rewarding during exam _____

Best staff member / family member to be present for exams _____

Notes on best - on the floor, table, in staff arms what areas of the body I do not like touched, greetings, etc
